EXPERIENCE

HUMBEE STUDIO | Web Developer
May 2023 – July 2024 | Ahmedabad, INDIA
- I have worked on diverse projects for various clients, including real estate and designers, business, using React and Next.js.
- Mentored junior web developers through code reviews, and tech support improving code quality and overall performance by 40%.
- Collaborated closely with clients to understand their needs, delivering feature-rich interactive websites that exceeded expectations, achieving a 95% client satisfaction rate.

I2E CONSULTING | UI Developer Trainee
Sept 2022 – March 2023 | Mumbai, INDIA
- I worked with senior developers and designers to help them in transformative activities by interpreting design models into receptive and interactive layouts that had a harmonized performance either in any browser or any device .
- Actively participated in training sessions and workshops to stay updated on Front-End Coding trends, contributing to team knowledge.

ELPIXALA | Web Developer Intern
June 2022 – Aug 2022 | Delhi, INDIA
- Create prototypes with new technologies and add features as assigned.
- Compose custom HTML, CSS, and JavaScript for already-existing sites and applications. Adjust, and revise website content, posts, and pages.

PROJECTS

ROYALE TOUCHE | Link
- The Royale Touche, a prominent plywood manufacturer in Ahmedabad, has introduced a website which is focused on front-end, it has featured the plywood-making process using an immersive 3D visualization.
- To develop this state-of-the-art contemporary website, I utilized diverse state-of-the-art technologies including Next.js, GSAP, Framer Motion, as well as Nodemailer.

INTERIORMAATA | Link
- InteriorMaata, a renowned interior designer, showcases her work through a minimalist and modern this website featuring a 3D home tour highlighting her projects. The website is elegantly designed with captivating animations and interactions.
- Created this website using Next.js , Gsap and framer motion.

RAAJ SOLAR | Link
- Raaj Solar, India's leading solar panel manufacturer, presents a lightweight, modern website crafted with React and SCSS, optimized for mobile responsiveness.

SIDDHGURU | Link
- Siddhguru is a front-end website built with React, SCSS, and GSAP, offering smooth animations and interactions. It serves thousands of users daily with a user-friendly, visually appealing experience.
